Notice

This document is a draft under committee review. It has no authority until ratified. The active policy remains HOSP-BYLAW-88 v1.1.

Proposed Section 11.8 Pediatric orders and unit transfers

It is proposed that for non-pediatric patients, unit transfers out of critical care zones may be covered by electronic attending physician countersignature within 2 hours of the infusion starting. Pediatric orders would continue to require written attending physician countersignature prior to infusion.

Proposed Section 11.9 High-alert medications

It is proposed that double-verification may be completed by one licensed nurse and one pharmacist.
